CHEESE PACKAGING

# A BARRIER YOU CAN COUNT ON

## High Performance Barrier Sealant Films For Your Most Demanding Applications

Our industry-leading barrier cheese films have excellent oxygen, moisture and aroma barriers, are freezer-tough and resistant to stress cracking and impact force – perfect for all your cheese applications. Ultra-thin layer selection of EVOH, nylon and other resins allows us to tailor each film for its specific end use.

Charter Next Generation offers this core product line of industry tested, high-performance, high quality films that will easily increase your productivity through improved leaker rates and production speed.

## Our Core Products:

- 40# Block Pouches
- 640# Liners
- Drum, Tote, Barrel Liners
- Institutional Bulk Shred
- Retail Sealants
- IWS Films
- Forming Films

## COMMON FEATURES WITHIN OUR CORE CHEESE PRODUCTS

All our products are designed to:

- Meet the barrier and physical properties of their intended use
- Provide the necessary shelf-life and physical property expectations of our customers
- Meet the physical product demands of the manufacturing environment and supply chain
- Designed for puncture and abrasion resistance while protecting the integrity of the product
- Are available in a variety of thicknesses and widths
- Produced on world-class assets in ultra-clean manufacturing environments

We also support our converters and brand owners with innovative customized films - designed to meet whatever exacting requirement you may have for moisture and oxygen barrier, improved stiffness, low SIT (seal initiation temperature), or any other property modifications.
