HEALTHCARE FILMS

PACKAGING FILMS

Flexible Films for Healthcare Packaging

Product Description

- Newest, most sophisticated film technology in the industry
- World-Class Plants and Processes
- 3 to 11-layer extrusion capability
- Blown and cast film technologies
- Superior gauge and layer distribution
- Excellent lay-flat
- Controlled COF technology
- GreenArrow™ Family of Sustainable Films

Industry Leading Tech: Turners Falls – CNG's Center of Excellence for Healthcare

- ISO Class 7 Cleanroom
- State-of-the-art coextrusion assets
- Inside the blown film bubble, air is controlled to a higher filtration level
- Equipped with a vision system, web-cleaning system, and in-line slitting
- Superior gauge control and lay flat film properties

High-Performance Healthcare Films from CNG

Flexible Forming Films

• Sustainable Forming Webs

- Specially engineered formulation designed to be environmentally friendly, while providing excellent formability, toughness, and durability

• Ionomer-Based Forming Webs

- Ionomers provide excellent deep draw capabilities and exceptional machine formability

• Multi-Layer Nylon-Based Forming Webs

- Nylon provides exceptional toughness, durability, and puncture resistance

Non-Forming Top Webs

• Peelable HDPE-Based Coex Film

- HDPE offers excellent moisture barrier properties, with clean, controlled easy-open peel

• Peelable Nylon-Based Coex Film

- Nylon provides excellent puncture and abrasion resistance, with wide seal range sealant

Flow Wrap Films

• HDPE-Based Flow Wrap Films

- Excellent moisture barrier properties, film caulks well and provides a hermetic seal

• Nylon-Based Flow Wrap Films

- Excellent puncture and abrasion resistance, film caulks well and provides a hermetic seal
