HEALTHCARE FILMS

ADHESIVE BANDAGE FILM

Heritage of Excellence

With over 25 years of supplying flexible films to the adhesive bandage market, we know what it takes for the coaters, converters, and brand owners to succeed in this market space.

Our custom engineered films permit converters to maximize efficiencies through the production process, enhancing volume throughput.

CNG's adhesive bandage films meet all of the exacting requirements of the healthcare industry.

Superior Processing:

- Broad range of color options
- Ability to print themed bandages with high quality graphics
- Ability to cut bandages into a variety of shapes
- Our films are waterproof yet flexible, and conform like a flexible fabric bandage
- High strength materials excel through the production process

Charter Next Generation supports our customers with innovative, high-quality films that increase your productivity. Our healthcare films are customized to your exact specifications to withstand sterility processes, provide traceability for film safety, and meet your rigorous end-use requirements. Our films deliver consistent quality for maximum reliability.

CNG Adhesive Bandage Film Substrates. Unparalleled Performance.

COLOR OPTIONS

- Broad range and customizable opaque color options available

PRINTABLE SURFACE

- One and two-sided treating to ensure crisp graphics on one side and flawless adhesive coating on the other

DURABILITY

- Multi-layered film allows for high strength materials that still excel in the production and handling process

EASE OF CONVERTING

- Modulus (stiffness or softness) of film designed for compatibility with die cutting

FLEXIBILITY

- Engineered polymers ensure flexibility of plastic with shape retaining properties, even compared to flexible fabric

WATERPROOF

- Water resistant materials available
