WOUND CARE FILMS

Unsurpassed Quality

When the film is part of your product, it better be the highest quality film in the marketplace.

And CNG Films are!

Our films are made in cleanrooms on the newest, most sophisticated assets in the industry. We even filter the air inside the blown film bubble to a higher filtration level.

Our processes are equipped with vision systems, web cleaning systems, and in-line slitting to ensure that you receive the cleanest, highest quality film that is manufactured.

When nothing but the best is required, look to Charter Next Generation for your Component Films.

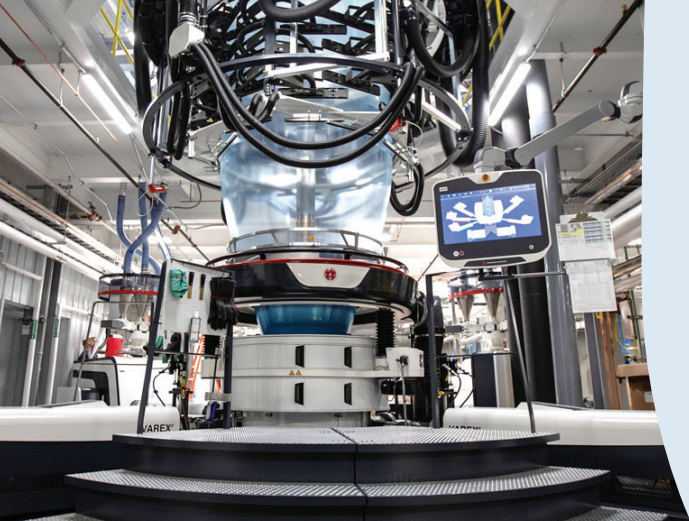

Technology Applications:

- Wound Care Dressings
- Adhesive Bandages
- Fenestrated Drapes
