CASE READY PACKAGING

Case Ready Packaging

Protect your products and your brand with case-ready film solutions from Charter Next Generation (CNG). CNG has designed these films to minimize leakers and withstand the package abuse observed through the distribution channels. The coex film design enables the material to be produced in an efficient process while maintaining the desired physical properties for the application. Through material design and manufacturing efficiency, CNG offers a premier film solution for the case ready market.

Features and Benefits

- Low Ox and High Ox Offering
- Outstanding barrier (oxygen & moisture) to improve product shelf-life
- Low seal initiation temperature
- Broad seal window
- Excellent puncture strength and abuse resistance
- Uniform thickness and lay-flat properties

Target Applications

- Case ready proteins
- High-speed flow wrap applications
- Pre-made pouch for CVP machines

PRODUCT SPECIFICATIONS

Product Code	Description	Gauge (Mil)	Yield @ 1 mil	OTR Barrier
CNS-191.27NT	Nylon/EVOH/mPE	2.0-3.0	28,200	High
CNN-191.27NT	Nylon/Nylon/mPE	2.0-3.0	28,660	Medium
CNS-101.35 (Pouch)	Nylon/EVOH/mPE	2.0-3.0	28,370	High
NNLHC304 (Pouch)	Nylon/Nylon/mPE	2.0-3.0	28,470	Medium

Charter Next Generation is well-positioned from a technical and manufacturing perspective to support the case ready market. Our portfolio of films is designed to perform on a wide variety of flow-wrap equipment and provide the barrier requirements needed to meet and exceed product shelf-life expectations. These films are produced on new, state-of-the-art machines to produce the highest quality packaging materials. Contact us to learn more.
