CHARTER NEXT GENERATION

SUSTAINABILITY LEADERSHIP

Enhancing Lives For A Better World

Charter Next Generation is one of North America's leading independent producers of high-performance specialty film, flexible packaging solutions, and other end-use products that impact our local communities and beyond. We are committed to a sustainability-first approach that protects families, strengthens the global community, and facilitates a greener future for generations to come.

Driven by an unwavering green mindset, each of our fourteen facilities plays a vital role in the growth and innovation that has characterized our company since its beginnings. We pride ourselves on manufacturing the ultimate packaging protection – providing a sustainable solution without the sacrifice in performance.

Our custom-engineered solutions keep food fresh longer, protect products better, and use cleaner processes to maintain the lowest carbon footprint of any major packaging supplier. Our unparalleled devotion to the environment also ensures our films allow for recyclability, compostability, and the use of post-consumer resin.
