PLASTIC SLIP SHEETS

HIGH PERFORMANCE PLASTIC SLIP SHEETS

The Charter Next Generation Plastic Slip Sheets product portfolio serves a broad range of segments

Plastic Slip Sheets ensure your valuable products
stay in place, creating high load stability in transit.

By reducing weight, space and cost, CNG's Plastic
Slip Sheets are a **space saving, cost reducing and
sustainable solution** to the problem created
by traditional pallets.

Features and Benefits:

- High Tensile Strength in Both the Width and Length of Sheet
- Co-Efficient of Friction Tailored to Application
- One Way or Multiple Use
- Repels Insects, Larva, Rodents, etc.
- Hygienic and Maintenance Free
- Made from Recycled Materials
- Eliminates Wood Disposal

STATE-OF-THE-ART SHEET SOLUTIONS:

Plastic slip sheets are essentially thick plastic sheets with a lip, typically 3-6 inches, and serves as a pallet replacement or product tier separator. These sheets are handled by using push/pull attachments mounted to standard material handling equipment.

These lightweight alternatives to wooden and plastic pallets save valuable space in production and warehouse areas and carry a significant cost savings with efficiencies gained. These slip sheets are made with recycled materials.

Features and Benefits:

- High Tensile Strength in Both the Width and Length of Sheet
- Co-Efficient of Friction Tailored to Application
- One Way or Multiple Use
- Repels Insects, Larva, Rodents, etc.
- Hygienic and Maintenance Free
- Made from Recycled Materials
- Eliminates Wood Disposal

Save up to 270 Cubic Feet
of space per shipping trailer by using Slip Sheets over Conventional Pallets

Save up to 2,000 lbs of weight
per trailer load using CNG Slip Sheets over Conventional Pallets
